# EMMANUEL'S FARM, WELWYN GARDEN CITY

---

Another of Millen's affordable housing projects is Emmanuel's Farm in the village of Stanborough. The development will deliver 20 affordable apartments in association with a local Housing Association. The building will be constructed from Insulated Concrete Formwork (ICF) with triple glazed windows. The apartments will have heat exchangers fitted to provide fresh warm air in the winter and healthy homes for the residents. We are also installing a car club at the site for residents to have the use of, meaning they have access to a car without the upkeep, usually associated with ownership.
