THREE HOUSEHOLDS, CHALFONT ST. GILES

Located in the beautiful village of Chalfont St. Giles is our recently approved scheme for 14 affordable dwellings.

The project will provide much needed housing to the village, utilising a former farmers yard adjacent to the village boundary. Gaining permission on the green belt land took the team 3 years, and great credit goes to our planning team.

The design takes influence from agricultural buildings in the area and has a communal courtyard with native trees and gardens.
