

MILLEN • 

## STATION ROAD, WILLINGHAM

---

This development is for 2 highly sustainable family homes in the village of Willingham in Cambridgeshire. Backing the open countryside, these houses will have commanding views from the rear. Utilising sustainably sourced birch cladding, solar panels and air source heat pumps these dwellings will be low cost to run and have a low carbon footprint.

Currently at planning with one house already reserved, if you wish to reserve the last house please get in touch through our website.
