

MILLEN • 

SILVER END, BRAINTREE

Soon to be submitted for planning is this affordable housing scheme for around 30 new starter homes.

These houses will provide an affordable alternative to people currently unable to get onto the property ladder in Braintree with discounted prices for people local to the area.

The houses will be built off site to reduce their construction time and also reduce on site waste from the build.

We are expected to start the development in 2024.
